BASSANO, ALBERTA, WEDNESDAY, AUGUST 23RD, 1927

WHEAT CUTTING STARTS IN THE HUSSAR DISTRICT

Harvesting Operations Will be General Next Week—Another Dance in Community Hall Next Night—Interesting News of the District

HUSSAR, Aug. 24.—A few farmers in this district have started to cut wheat, and by the first of next week bladders will be running on practically all farms. The crop will be very heavy except where it has suffered from hail damage.

Mr. and Mrs. George Gunning and daughter Miriam motored to Washington where they are spending a short holiday with relatives and friends.

Church services in the Community Hall every Sunday evening at 7.30. Come and bring your friends. Rev. Barton's theme for August 28th is "Lions." Rev. Barton is a splendid speaker and the church attendance is steadily increasing.

Hussar school will commence on Tuesday, Sept. 6th. Mr. Paige, of Patricia, will be the principal. Miss Pauline Kyle will have the intermediate room, and Mrs. Frank Parley the primary classes.

Mrs. Hartved and children have taken a house in Bassano for the winter.

Mr. and Mrs. Joe Harris visited with Miss Violet King in Bassano on Sunday.

Johnnie and Loren Moffat have left their point this week for Lacombe, of Calgary.

Mr. and Mrs. Stewart Childow spent a few days this week with the latter's parents, Mr. and Mrs. Carter. Mr. and Mrs. Childow will teach at Lacombe this year.

Raymond Knoll and his mother were visitors at the home of A. J. Jensen this week. Miss Alberta Jensen returned home with them for a short holiday at Morris.

Margaret and Nellie LeGrand are visiting at the home of Mrs. C. G. Gieschen.

Mr. and Mrs. Theodore Larson and Mrs. Hoy motored to Banff on Sunday where they will camp for a few days.

Mr. and Mrs. Frank Thew were Bassano visitors Saturday.

J. Elliott suffered quite a nasal loss last week when fourteen head of his cattle were poisoned by weeds which the C.P.R. were endeavoring to kill with arsenic.

Miss Mildred Jones is the new assistant telephone operator at Hussar.

Everyone was very enthusiastic over the picture "Red Boots" shown last week. Don't forget to come this Saturday and see "Variety."

A hardline dance will be held at the Fairy Doll school Saturday night.

Two Bassano Scholars Win Bronze Medals

Jennie Yule and Stanley White, both of Bassano public school, won bronze medals for their literary efforts in the Alberta Diamond Jubilee history competition. The winners of these two scholars is very commendable. Evelyn Lay, of Cluny school, and Louis Ross, of Fairly Hill school, also won bronze medals in the Bassano inspection. The winner of the gold medal, the highest award in the competition, was won by Jan Campbell Archibald, of Burr's Center. D. C. pupil of St. Mary's Girls' school, Calgary. James Allard, of the H. A. Gray school, Edmonton, was top in the competition for public school students.

Gem News

GEM, Aug. 24.—Mr. and Mrs. Roberts returned to Calgary on Sunday.

Ben Gray was a Wednesday evening caller on Mr. Roberts at 12 E. St.

C. P. R. employees are stacking their second crop of alfalfa on the C.P.R. recreation farm.

T. Weddicks, accompanied by the Misses O. Callaghan and Maguire spent a very pleasant Sunday with Mrs. Roy Holman and mother, Mrs. J. Rupp, of Hussar district.

P. Murphy and W. Marshall were Sunday evening visitors at the Maguire home.

A large crowd attended the dance held in McKimney's new barn on Saturday. The orchestra consisted of Mrs. Hattie Paul, W. Hoover, and L. Boyd.

Mrs. J. Bush and daughter Elizabeth and Margaret motored from Pitham, Wash., for a few days with the Bush family.

Mr. and Mrs. Frank Harper, of Northport, Washington, are visiting at Walter Schlegel's this week.

There will be another dance in the Hussar Community Hall next Friday. Come and bring your friends. The last dance proved to be a great success, and we are glad to welcome so many outside young people.

TOWN IRRIGATION NOW UNDER TEST

Water Turned Into Main Ditch On Thursday Afternoon

Water is flowing in the main ditch of the town irrigation system. Frank Mack, town engineer, threw in the switch at 2:30 o'clock Thursday afternoon to start the electric pump that raises the water from the supply ditch to the head of the town main ditch.

The machinery worked perfectly, and the water started flowing at the rate of about 100 cfs. into the ditch, which had advanced to about half way across the main canal.

The water makes slow progress in the ditch, as much of it soaks into the ground, but once the ground has been thoroughly soaked the water will flow along much more rapidly.

The electric pump takes the water from the supply ditch and lifts it a vertical height of 27 feet up a hill through about 275 feet of ten inch pipe, to the head of the town irrigation ditch. The electric pump is a wonderfully smooth running piece of machinery, and does the work well.

Mayor H. O. Bretin and Councilman A. McKee, chairman of the town irrigation committee, came out to inspect the works in the afternoon, and both looking it over expressed satisfaction with what they saw.

It is intended to thoroughly test the main ditch and probably some of the laterals immediately branching off from it. As no culverts have yet been put in where laterals cross the streets, the water cannot be run in these ditches.

Majorville Couple Hold Wedding Dance

All Majorville gathered at the Liberty school house last Friday night to attend the dance given by Mr. and Mrs. Ralph Galey.

The young couple certainly spared no effort to give everybody a good time. Ralph and his bride were a real happy couple.

Sam Galey had charge of the floor and he saw to it that everyone had a good time. Sam makes one good floor manager.

SMILING SKIES FAVOR HARVEST OPERATIONS

Wheat Cutting Now In Full Swing In the Bassano District—Heavy Crop Takes A Lot of Time—Big Yields Predicted

Under ideal weather conditions wheat harvesting is now in full swing around Bassano. Already nearly 25 per cent of the grain has gone down before the binder, and the machines are busy from early in the morning till late in the evening.

There are no poor crops around Bassano. Every field down to wheat, whether on summer fallow, fall or spring plowing or stubble in, shows an excellent stand of grain. In some cases wheat sown on stubble is almost as good as that sown on summer fallow. Estimates of yield are high, ranging from 30 bushels to 40 bushels to the acre. 30 bushels is considered a conservative estimate, and it is confidently expected that many fields will go as high as 40.

The crop this year is taking a lot of time, from three to four pounds to the acre. Harvest wages being paid are about 14 1/2¢ a day, and so far there is no scarcity of labor.

No hail loss has been suffered around Bassano, the district having been fortunate in this regard.

Rosemary News

ROSEMARY, Aug. 24.—The laying of the steel for the new railroad has started. The work is being done very rapidly, and the "T" will soon be completed.

Poster A. McDonald, have moved their camp about two miles north of Rosemary.

Everybody is busy cutting their crops. Owing to the clear, cold nights and lateness in the season everybody is in a hurry before frost comes.

The Rosemary basketball team played Gem on the Gem court last Sunday, the score ending 16-4. In favor of about 1000 persons will be played at Rosemary on Sunday, Aug. 28th.

Miss Beatrice Jones returned to Calgary last Saturday after spending a two weeks holiday with her folks.

Mrs. Park and two daughters, returned to Brandon on Tuesday after having an extended visit with her brother-in-law, W. J. Park.

E. Dumas and J. Bergeron were Bassano visitors on Wednesday.

Edwin Kewenig's brother is in Henry this week putting over a bus line.

BASSANO GIRL MARRIED

Word has been received recently of the marriage of Miss Helen McKendrick to Mr. H. A. Kelly, of Drumheller. Miss McKendrick was formerly a Bassano girl, and has been on the Drumheller school teaching staff for the past few years.

Travel in Effigy on Pioneer Railway

Upper—The effigy that sat in conference for three weeks in Vancouver during the Jubilee week. Lower—The effigy that sat in conference for three weeks in Vancouver during the Jubilee week.

Traveling in effigy on the Railway that made possible the union of the Canadian provinces, the Fathers of Confederation recently journeyed from Toronto to Vancouver via the Canadian Pacific Railway. Their trip was part of the program of a Vancouver department store in connection with the Diamond Jubilee Celebrations.

The "Fathers" were equipped in Toronto by Marie Foster after months of research among the archives at Ottawa. Little did these stalwart dream that reproductions of themselves would travel in far greater comfort than their real selves could command six decades ago.

Every convenience was given for their welfare, their bodies swathed in the finest of eiderdown. They travelled in luxury in individual cars wrapped in building paper—disrupt and exposed.

On arrival passengers carefully helped them from their "plush" chairs. The "Fathers" were not so easily as they were then millionaires in a barber shop. They were then comfortably seated around the conference table where they continued in conference day and night for three solid weeks.

Countess News

COUNTRESS, Aug. 25.—Mrs. Leta Fryberger, who has been visiting Mrs. Gault, went to Hussar Friday.

Mrs. A. Holm and Mrs. A. Smith, of Latham, Mrs. Leta Fryberger, of Hussar, Mrs. Gault, Caryl, Jeanne, Donna, and Marianne were dinner guests at the Stone house Thursday.

Mr. and Mrs. A. M. Anderson were very fortunate not to be badly injured on Sunday when their car went heading into a 18 foot irrigation ditch near the Stone home. Mrs. Anderson was badly shaken up, but is able to be about.

G. B. Warren, of Bassano, was out for a visit with Mr. Keir on Sunday.

Mr. Goth was a dinner guest at the Newman home on Wednesday.

Mr. Bunge entertained a number of his Country Friends on Friday.

Frank Chamberlain and Marie, Robert, and Paul, were over from the Gem ranch.

Mrs. Keir, Mrs. Cowen, Mrs. Thompson, and Miss Keir enjoyed the hospitality of Mrs. A. M. Anderson Saturday afternoon.

Mr. Goth wishes to announce that on September 11th communion service will be held at Countess, Rosemary and Gem. The meetings will be in charge of Rev. Mr. Moore, of Brooks.

If anyone in the community have babies they wish to have baptised, bring them on this date.

Mrs. A. Matlick had as her guests on Tuesday Mrs. A. Chisham, of Bassano, Mrs. Thompson, and Mrs. Cowen.

Mrs. and Mrs. Newman called on Miss King Friday evening.

Good Honey Crop At Brooks Apiary

Heldel's Honey, Limited, of Brooks, are in the midst of a very busy season, says the Brooks Bulletin of last week. On Monday 50 cases of comb honey will be shipped to Calgary, for Red Deer and Edmonton districts, and on Wednesday 115 cases will be shipped.

At least 24 sections. These shipments are only a portion of the orders. It is expected that from 500 to 600 cases of comb honey will be shipped from Brooks this year.

Besides there has been extracted 70,000 pounds of honey up to date, and in a short time a carload of 15,000 pounds will be ready for shipment.

MAJORVILLE NEWS

The Masons and their families of Bassano, Ladies A.P. & A.M. held their annual picnic at Crowfoot Creek last Tuesday afternoon. It was a splendid picnic weather, and everyone enjoyed themselves, especially the boys and girls. Bathing was the popular sport, and there were also foot races for the children after lunch.

MORE HORSES FOR RUSSIA

Horse buyers from the Russian government are again in the Bassano district buying up more horses for a second shipment to their country. About six hundred head have been bought in this vicinity for the second shipment which will leave Canada early next month.

Lewis Kon, who is in charge of the Russian government's purchase of horses in western Canada, says that there was every likelihood of all of the second shipment of 1,400 head being procured in Alberta.

"Two commissions were already at work in the Bassano and Medicine Hat districts," he said, "and J. M. Dillon had been engaged by the Dominion government to secure the horses."

Plans had been made to secure the horses by September 8, when they would be forwarded to Quebec, as the special chartered steamer would be arriving there on September 15. The horses would be collected at a central point at Dunmore to facilitate shipment.

Mr. Kon said that the Dominion and provincial governments were giving splendid assistance and co-operation in carrying out the contract, that had been entered into.

Members of the government and officials, he said, were expressing a great desire that there should be continued orders placed in Canada for the Russian government's horse requirements.

It was possible, he said, that the horses for the third shipment would be procured in Alberta, British Columbia, and Saskatchewan, and there was a likelihood that a fourth shipment might be arranged.

Mr. Kon has just returned from Quebec where he accompanied the first shipment. He stated that government officials and others had been well pleased with the manner in which the steamer had been fitted out to carry the horses.

BY YOUNG

Roy Smith, Bassano Ford dealer, has recently sold over 100 cars to the following purchasers:

George Hepner, Gem, a light delivery. Chester Hayden, of Gem, a touring. Taylor, Simons, of Crowfoot. Hastings. R. R. situation, of Duchesne, a tudor sedan.

When his intolerance finally leads to her mother's accidental death, the girl runs away from home to become a cabaret dancer in New York. Her exciting adventures midst the gay night life of Broadway and the millionaire society atmosphere of Long Island is vividly and brilliantly portrayed. The manner in which the older Gilbert is brought to a startling realization of his injustice to his daughter, their subsequent reunion and the girl's romance with a young actor of wealth bring the picture to a stirring climax and a happy ending.

A special holiday attraction for Monday, Sept. 5th is "Scarlet West."

TO BUILD THE SWIMMING POOL NEXT SUMMER

George Travis Talks in Report at Board of Trade Meeting

George Travis, chairman of the swimming pool committee, reported at the Board of Trade meeting Wednesday noon that as it was now too late to build the swimming pool this year, the committee had decided to postpone the work until next year. After the secretary treasurer announced that the board had about \$1,000 on hand, for disposal, Mr. Travis gave notice of motion that \$500 of this sum be turned over to the swimming pool committee to be spent on the swimming pool and equipment.

\$50 for Weed Destruction

About sixteen members were present at the meeting which was presided over by Vice President Wm. Blankstein in the absence of President E. P. Currie.

It was decided to spend the sum of \$50 in co-operating with the town council in the destruction of weeds.

The Irrigation System

A. McKee, chairman of the Irrigation committee of the town council, reported that the Irrigation system had been completed except for the building of culverts where lateral ditches crossed the streets, and the water was about to be turned into the main ditch.

E. A. Beck advised that the trees on the streets be watered some time after the first freeze-up. Where Irrigation water was not available, the trees should be watered by other means.

Modern Family

Clash Portrayed in "Padlocked"

"Padlocked," showing in the Gem Theatre Friday and Saturday this week. August 26 and 27, tells the story of a modern family in a moving and powerful play for tolerance and sympathetic understanding on the part of the older folk in their relation to modern youth.

Readers of the Cosmopolitan Magazine will recall the story by Rex Beach of a man from different points of view. Keith Gilbert is a shining example of the modern, freedom-loving American girl who renounces her narrow, old-fashioned ways to become a cabaret dancer in New York. Her exciting adventures amidst the gay night life of Broadway and the millionaire society atmosphere of Long Island is vividly and brilliantly portrayed. The manner in which the older Gilbert is brought to a startling realization of his injustice to his daughter, their subsequent reunion and the girl's romance with a young actor of wealth bring the picture to a stirring climax and a happy ending.

A special holiday attraction for Monday, Sept. 5th is "Scarlet West."

Extra Help Is Rushed To Work On Bay Railway

WINNIPEG, Aug. 25.—To speed up the work of surveying the territory through which the Hudson Bay Railway will pass from the end of the present rail to the proposed terminal at Port Churchill, three engineers from the department of public works at Ottawa arrived in Winnipeg Wednesday.

Accompanying the engineers was a small party of special craftsmen and on their way to The Pas, Manitoba, about 500 more men will be engaged. Some of the party will proceed to Port Nelson to commence the work of retrieving as much of the harbor material as can be used at Port Churchill. Another group of men will start on the preliminary survey for the harbor developments at the new terminal.

DAME NATURE'S GENEROSITY

In practically all parts of Alberta farmers will this fall harvest a better crop than average crop, and in the Bassano district the crop will be unusually heavy, the best in years.
Dame Nature has been generous to Bassano farmers this season. She has, it seems, been trying to make amends for the lean years when little rain fell, and scorching hot days shrivelled the parched wheat fields and brought despair to the farmers.
The growing season has been ideal this year. Rainfall has been frequent and sufficient to supply all the needs of the growing wheat. While some districts have suffered considerable loss from hail, Bassano has been very fortunate in having escaped unscathed from this danger. It is indeed a banner year for the Bassano district, and farmers are thankful for all the blessings it brings.

THE MIRACLES OF SURGERY

At Rosemont, Virginia, there is a young man living with a broken neck. It happened in an automobile accident, and he received prompt surgical attention that saved his life. Strapped up with steel and leather supports, he continued his course in wireless engineering, and is now a licensed government operator. Medical science cheated the hand of death.
One of the most recent triumphs of modern surgery is Dr. Voronoff's gland operation by which he believes that the life of the average man may be lengthened to 125 years. Perhaps it is too soon to call it a triumph, for the first gland grafting operation was performed only seven years ago. But the experiments have so far proved satisfactory. The result of gland grafting is to restore to a man of 75 years the health and vigor that were his twenty years before. The operation is also said to cause an improvement in mental condition as well.
This is medical science striving, and with apparently a large measure of success, to relieve human pain and suffering and to prolong the term of man's usefulness on earth.

SAFETY IN SKY RIDING

The public is today thrilled at the great feats of flying which are being undertaken by intrepid young aviators, and shocked at the tragedy and mystery with which fate has surrounded some of these daring attempts.

With no many fatalities occurring in the field of aviation, the average person is inclined to regard flying as an extremely dangerous occupation, but it is interesting to note that in the field of commercial flying comparatively few fatalities have occurred. The Aeronautical Chamber of Commerce of New York estimated that there were 75 commercial fatalities in 1926, and that commercial planes flew 12,746,640 miles during the year. That was at the rate of one death for every 249,865 miles flown.

Foreign aviators are doing even better. Australia reports a million miles with only one fatality. In France there is one death to every 728,500 miles flown. In Germany one concern flew 1,414,000 miles, carrying 56,528 passengers, with only one fatal accident. The Imperial Airways Ltd., in Great Britain, covered 741,000 miles carrying 16,000 passengers, and no fatal accidents.

In military and naval aviation the fatality list is appalling.
With public interest centered on the tragic consequences of recent trans-oceanic flights, the majority of people of this generation will continue to regard sky riding as extremely dangerous. Most people will prefer to travel on solid ground.

Time To Do Something

The man with ribs in his coat or buttons torn off should either get married or divorced.

Being now a married man, the editor of the Blairmore paper should know what he is talking about.

The party of British newspaper men now touring Canada will pay a visit to Turner Valley and Skiff. It is hoped when on their return they will drop into the office of the Tribune Saturday Night and break the news to the editors of that paper we have real oil wells in Alberta.

THE HENEFACTORS

(by Rudyard Kipling)
Ah! What avails the classic bent
Against the undoctored incident.
And what the cultured word,
That actually occurred?

And what is art whereof we press
Through paint and prose and
When Nature in her nakedness
Thyself—
Defeats us every time?

It is not learning, grace nor gear,
Nor any mess, and drink,
But bitter stich of pain and fear
That makes creation thick.

When in this world's unpleasing youth
Our god-like race began,
The longest arm, the sharpest tooth,
Gave man control of man;

Till bruised and bitten to the bone
And taught by pain and fear,
He learned to deal the far-off stone,
And poke the long, safe spear.

So tooth and nail were obsolete
As means against a foe,
Till, bored by nature's defeat,
Some genius built the bow.

Then stone and javelin proved no vain
As old-time tooth and nail;
And speared and smote by far and pain,
Man fashioned coats of mail.

Then there was safety for the rich
And danger for the poor,
Till someone mixed a powder which
Redressed the scale once more.

Helmet and armor disappeared
With sword and bow and pike,
And when the smoke of battle
Cleared—
All men were armed alike.

And when ten million such were slain
To please one crazy king,
Man, schooled in bulk by fear and pain,
Grew weary of the thing;

And, at the very hour destined,
To enlarge him past recall,
His tooth-stone-arrow-gun-shy mind
Turned and abolished all.

All Power, each Tyrant, every Mob
Whose head has grown too large,
Ends by decaying its own job
And earns its own discharge.

And Man, whose mere necessities
Move all things from his path,
Trembles meanwhile at their decrease,
And deprecates their wrath!

LOST—Sorel driving team; well matched mares; weight about 1500. One branded on right thigh, and the other one branded L.T. on right shoulder. \$500 reward.

McLaughlin-Buick took vibration out of the engine—Now it has taken it out of the road

WHEN McLaughlin-Buick made its famous six-cylinder, Valve-in-Head engine vibrationless beyond belief, millions, the world over, hailed this startling advance in motor car performance as an engineering triumph.

Now McLaughlin-Buick for 1928 has followed with another great contribution to motor car comfort. McLaughlin-Buick has taken vibration out of the road by equipping every model with Hydraulic Shock Absorbers, front and rear—an added luxury that the savings of McLaughlin-Buick volume have been able to supply.

McLaughlin-Buick Hydraulic Shock Absorbers—made an integral part of the car by re-designing springs and chassis—provide far greater smoothness than Shock Absorbers which are added as "extra equipment".

5 to 25 miles in 8 seconds

Ride in this new Chrysler—the startling new "52"!

Examine its many mechanical advantages—air cleaner; steel spring engine mounting; force feed lubrication; specially designed manifold; and scores of others—which enable the new "52" to perform so brilliantly and so economically.

Sink deep into its comfortable saddle-spring cushions.

Enjoy the promptness and comfort, the ample seating capacity of the staunch, handsome bodies. Note the sturdy wood and steel construction. Slam the doors and note the absence of rattle and vibration.

Rest in the luxuries: upholstery—fine mohair in closed, and leather in open models. Inspect the tasteful hardware.

Grasp the handsome steering wheel, so readily adjustable to your size and height, so easy to turn.

Observe how the car leaps nimbly, eagerly, from a speed of 5 to 25 miles in 8 seconds. Thrill to the seemingly effortless speed of 52 miles and more per hour of which this model is capable.

Note the artistic, indirectly lighted panel, where all instruments are conveniently closely grouped.

See how free and unobstructed is the driving vision; afforded by the narrow corner pillars and narrow header board, in the closed types.

Look the whole car over carefully—and examine the various other body types too.

Take in the low sweeping stream-lines of the bodies, the military fronts, smart cadet visors and vertical ventilating wind-shields, the graceful rounding off at the rear of the closed types; the neat, compact jackknife fold of open car tops; the automatic windshield wipers on all types.

Admire the harmonious color blendings of greys, greens and blues, with striping, banding, window reveals in sharp contrast. How well the bullet type headlamps look—and the small wheels which give the Chrysler "52" greater style, riding ease, and safety.

And remember—always—that here is a Chrysler Standardized Quality product at a price that represents the most in honest dollar-for-dollar value that the automobile purchaser's money has ever been able to buy.
